PROFESSIONAL SUMMARY

Flutter Developer with 3.6+ years of experience building scalable, high-performance cross-platform mobile applications across **Fintech, Healthcare, and E-commerce**. Delivered **15+ production applications**, with a strong focus on building reliable, user-centric, and maintainable mobile solutions. Expertise in **Flutter, Clean Architecture, BLoC, Riverpod**, and offline-first architectures, with experience designing robust application workflows and scalable codebases. Skilled in **AI/LLM integrations using OpenAI and Google Gemini**, performance optimization, resilient API architecture, and technical leadership, with a proven ability to deliver complex production-ready applications.

TECHNICAL SKILLS

MOBILE DEVELOPMENT:

Flutter, Dart, Cross-Platform Development (Android & iOS), Web, Windows Desktop, Responsive UI, Custom Widgets, Platform Channels

ARCHITECTURE & STATE:

Clean Architecture, MVVM, BLoC / Cubit, Riverpod, SOLID Principles, Repository Pattern, Offline-First Architecture

BACKEND & DATA:

REST APIs, Dio, WebSockets, Firebase (Auth, Firestore, FCM), Hive, SQLite, Secure Storage, Caching & Error Handling

AI & INTELLIGENT FEATURES:

OpenAI API, Google Gemini API, LLM Integration, Multimodal AI, SSE Streaming, Prompt Engineering, Google ML Kit

PERFORMANCE & ENGINEERING:

Performance Optimization, Flutter DevTools, Memory Profiling, Lazy Loading, Widget Rebuild Optimization

TOOLS, PAYMENTS & DEPLOYMENT:

Git/GitHub, CI/CD Pipelines, Postman, Play Console, TestFlight, Razorpay, Stripe

PROFESSIONAL EXPERIENCE

Flutter Developer | Innovins Softech Solution Pvt. Ltd.

April 2024 – Present | Remote

- Engineered and shipped 10+ enterprise mobile apps** across healthcare, fintech, and retail, consistently maintaining 4.5+ star store ratings.
- Improved app performance and frame rendering by 60%** by eliminating unnecessary widget rebuilds, implementing lazy pagination, and profiling memory leaks via Flutter DevTools.
- Reduced API failure rates by 40%** by designing a unified networking and caching framework utilizing Dio interceptors, token refresh flows, and Hive local storage.
- Mentored 3 junior developers** through architecture reviews, test-driven development practices, and standardized linting guidelines.

KEY PRODUCTION HIGHLIGHTS:

- QiSpine (Healthcare & Telemedicine):** Architected dual doctor-patient apps with real-time video consultations, appointment booking, patient monitoring, and encrypted health records.
- Kookease (Generative AI Recipe Platform):** Integrated multimodal LLM pipelines (Gemini / OpenAI API) with real-time SSE token streaming, voice/image inputs, and structured JSON parsing to synthesize interactive recipes.
- Impetus (Fintech & Wealthtech):** Developed personal wealth management app with proprietary risk assessment algorithms, live market news streaming, and advisory consultation scheduling.

Team Lead | Flutter Developer | NextGen Techno Ventures

June 2023 – March 2024 | Remote

- Directed a cross-functional agile squad of 4 (2 backend engineers, 1 UI/UX designer, 1 QA), consistently achieving a 95% sprint completion rate.
- Improved engineering delivery velocity by 30% by standardizing repository branching strategies, automated code review pipelines, and shared UI component libraries.
- Led technical architecture decisions, migrating legacy codebases to Clean Architecture with BLoC, reducing technical debt and feature regression bugs by 35%.

NEXTGEN PRODUCTION HIGHLIGHTS:

- Mitra Fintech (Agent & Customer Apps): Delivered dual-app lending solution with digital KYC verification, auto-cropping document scan, credit scoring, and automated status tracking.
- Green India Retail (Customer & Delivery Partner): Multi-role subscription e-commerce platform with automated recurring payments, live GPS order tracking, and inventory sync.

Flutter Developer Intern | Celebrare

May 2023 | Remote

- Developed 15+ production features and resolved 50+ bugs across consumer-facing mobile applications.
- Built 30+ reusable, pixel-perfect custom widgets from Figma specifications, accelerating front-end delivery by 25%.
- Integrated Firebase Auth, Firestore, and FCM Push Notifications, boosting user engagement and retention.

Flutter Developer Intern | Baoiam Innovations Pvt. Ltd.

March 2022 – May 2022 | Remote

- Developed core cross-platform UI modules and navigation flows for ed-tech mobile application using Flutter and Dart.
- Integrated REST APIs and authentication services, ensuring responsive data rendering and smooth state transitions.
- Built 25+ reusable responsive widgets, ensuring smooth 60 FPS performance and cross-device compatibility across Android and iOS.

EDUCATION

B.Tech in Computer Science Engineering — Uttarakhand Technical University | 2019 – 2023

SPEAKING EXPERIENCE

Tech Speaker — Flutter Siliguri | "Building Production-Ready Flutter Apps" | Jul 2024

CERTIFICATIONS

Advanced Flutter Development — Coursera | 2023

Flutter Development Bootcamp — Udemy | 2022

Git & GitHub Essentials — Udemy | 2022

LEADERSHIP & METHODOLOGIES

Team Leadership • Agile/Scrum • Code Review • CI/CD Automation • Generative AI Workflows • App Store Deployment

LANGUAGES

English (Professional Working Proficiency) • Hindi (Native)
